

Rakshitha Kotyan

Software Development Engineer | Full-Stack & ML | Android Developer Intern
+91-8904470154 • rakshithakotyan0@gmail.com • [LinkedIn](#) • [GitHub](#)

EDUCATION

B.E – Computer Science & Engineering

2022 – Present

Alva's Institute of Engineering and Technology, Moodbidri, Karnataka | CGPA: 9.1 / 10.0

EXPERIENCE

Android App Developer Intern — Mindmatrix

Present

Android Development • Generative AI Integration • Agile

- Building Android applications integrated with Generative AI, applying OOP design principles, REST API integration, and agile practices in a cross-functional engineering team.
- Gaining hands-on experience with distributed computing concepts and real-world software development workflows at scale.

PROJECTS

Multiple Disease Detection & Health Tracking System

2026

Python, Flask, scikit-learn, JavaScript | REST API, Machine Learning, Data Preprocessing

- Engineered an ML-based health assistant predicting multiple diseases from symptoms and vital signs using scikit-learn, with advanced feature engineering and optimized data pipelines.
- Developed Flask REST APIs with secure routing, input validation, and structured medical data processing for reliable multi-output distributed prediction.

Online Agribusiness Portal

2026

MongoDB, Express.js, React, Node.js (MERN) | REST API, Web Security, OOP

- Built a full-stack MERN portal enabling 100% digital agricultural subsidy workflows with RESTful APIs, form validation, and secure MongoDB data storage.
- Designed a responsive React UI using component-based OO architecture with client/server-side validation and protection across distributed nodes.

Student Marks Management System

2025

Java, JSP, Servlets, JDBC, MySQL | MVC, OOP

- Developed a full-stack Java MVC web app with OOP design, CRUD operations, session management, and SQL injection prevention via prepared statements.

PUBLICATIONS

- Structured Intelligence: Merging Neural and Symbolic AI — IEEE (2025)
- Multiple Disease Detection and Health Tracking Using Machine Learning — IEEE (2026)

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL

Databases: MySQL, MongoDB

Tools: Git, GitHub, Android Studio, VS Code

Technologies: React, Node.js, Express.js, REST APIs, Android SDK, Generative AI APIs, HTML5, CSS3

Core CS: Data Structures & Algorithms, Object-Oriented Design, Distributed Systems

Soft Skills: Problem Solving with Ambiguous Problems, Abstract Thinking, Technical Communication, Collaboration

CERTIFICATIONS

Salesforce Developer Virtual Internship (Agentblazer, 2025)

- NPTEL: C Programming
- NPTEL: Software Engineering
- CodeChef: Data Structures & Algorithms
- CodeChef: Algorithm Design
